# **TLP AMBER**MSS-VM REPORT

## **About this report**

This is a SKYWATCH report that presents the most up-to-date information for the MSS-VM as displayed in the service dashboard.

# **Overview**

**Vulnerability Level** 

**8**%

**Discovered Hosts** 

48

**Vulnerable Hosts** 

**27** 

#### **EXECUTIVE SUMMARY VULNERABILITY SEVERITY DISTRIBUTION\***

TLP:AMBER = Limited disclosure, restricted to participants' organizations. Sources may use TLP:AMBER when information requires support to be effectively acted upon, yet carries risks to privacy, reputation, or operations if shared outside of the organizations involved. Recipients may only share TLP:AMBER information with members of their own organization, and with clients or customers who need to know the information to protect themselves or prevent further harm. Sources are at liberty to specify additional intended limits of the sharing: these must be adhered to.
